Ray

Ray has a new value proposition for space
that stretches the limits of everyday life.
Discover a new mobility life that opens the doors to creative living.

The new boundaries of my life
The new Kia Ray

1.0 gasoline _ Adventurous Green (A2G) / The specifications may apply differently depending on the powertrain, trim and options selected.

1.0 gasoline _ Clear White (UD)
The specifications may apply differently depending on the powertrain, trim and options selected.

A modern and solid design

Fine details complement a more robust and stable body to exude new charm.

Ray X-Line

Dark Metal Center Garnish, Tailgate Garnish, Front/Rear Skid Plate, 15-inch X-Line dedicated Black Alloy Wheels and Black Emblem incorporate black points that add a solid look to Ray X-Line.

Dark metal center garnish, Black emblem

Dark metal tailgate, Black emblem

Front skid plate

Rear skid plate, X-Line dedicated emblem

15-Inch X-Line dedicated black alloy wheel

Black roof, A-pillar, outside mirror, and shark fin antenna

The specifications may apply differently depending on the powertrain, trim and options selected.
※ The black roof and A-pillar use adhesive film.

Work and play – All at once.

Design a creative and colorful lifestyle wherever you go with Ray's more ample spaces.

Fully folding seats and a sliding door that opens up one side completely – Ray’s interior expands your lifestyle possibilities.

Driver seat folding

Electric Parking Brake

Auto Hold

Convenience features designed for efficiency
make driving easier and more comfortable.

Ventilated driver's seat(linked with Kia Connect)*
A fan embedded in the seat provides ventilation to create a comfortable driving environment.

Air purification mode*
Outside air pollutants are barred from penetrating the interior and air is purified to create a pleasant indoor environment.
* A virtual image has been used to help viewers' understanding.

Kia’s advanced driver assistance systems enhance driving safety and convenience.

Blind-spot Collision Warning, Blind-spot Collision avoidance Assist (forward vehicle exit)
Alerts the driver when the turn signal is activated to make a lane change and there is a risk of colliding with a vehicle in the back in an adjacent lane. Helps to brake the car automatically if there is a vehicle approaching from the back in an adjacent lane while steering onto the road after parallel parking.

Cruise Control
Enables the driver to maintain a preset speed without having to step on the accelerator pedal to help reduce driver fatigue.

Forward Collision Avoidance Assist (vehicles/pedestrians/bicycles)
Warns the driver if a vehicle ahead suddenly slows down, or if the driver senses a risk of a frontal collision with a stopped vehicle or pedestrians and cyclists ahead. If the risk of a collision remains high after the warning, your car will automatically intervene with braking assistance.

Rear Cross-traffic Collision-avoidance Assist
Alerts the driver if a car is approaching the back from the left or right while pulling out in reverse. Automatically helps to brake the car if the risk of colliding increases even after sounding an alarm.

Lane Following Assist
Tracks lanes to help maintain the vehicle in the center of the lane.

· ADAS is only intended to assist the driver. Be attentive while driving at all times. Functions may not operate smoothly due to road or driving conditions. / Please refer to the user's manual for details.
· The specifications may apply differently depending on the powertrain, trim and options selected.
※ The images above are for 1.0 gasoline.

1.0 gasoline _ Clear White (UD) / The specifications may apply differently depending on the powertrain, trim and options selected.

Enjoy a superb driving sensation with easy operation and outstanding agility.

1.0 gasoline			
12.9	Combined fuel economy km/ℓ	76	Max. power ps / 6,200rpm
*based on 14" tires			
9.7	Max. torque kgf·m / 3,750rpm		

1.0 gasoline _ Smoke Blue (EU3)
The specifications may apply differently depending on the powertrain, trim and options selected.

Starting life with EV

Relaxed daily living, doing business smartly
Enjoy a variety of mobility life everyday
with Kia Ray EV!

EV _ Smoke Blue (EU3) / The specifications may apply differently depending on the powertrain, trim and options selected.

Range per charge (km)	Electric motor		Charging time
205 km	64.3 kW	147 Nm	40 min (100 kW fast charge mode, charged to 80%)

※ Fuel efficiency figures(mileage) are certified by the Ministry of Trade, Industry and Energy. ※ Actual figures may be lower during the winter or when outside temperatures drop due to a decline in the battery's performance. ※ Fuel efficiency figures(mileage) correspond to standard mode. Actual figures may vary according to driving habits, vehicle speed, the number of passengers, vehicle load, vehicle settings, maintenance, outside temperature, the weather, and road conditions. ※ The battery charging time above is based on internal laboratory tests. ※ The charging time above was measured when the battery and surroundings were at room temperature. Actual figures may vary depending on the battery temperature, charging power, battery condition, and external temperature.

EV Charging Guide and Subsidies

EV Charging Guide

Check "Charging EVs and Benefits" on KIA EV Guide page

1. How to charge EVs (Slow/Fast/Ultra-Fast)
2. Charging status (Destination/On-route Charging)
3. Charging cards (MOE/Private Business Operator)
4. Installation of chargers

※ Scan QR Code > Connect to KIA EV Guide page

KIA EV Subsidies

Vehicle Models subject to Subsidy Payment
[Government Subsidies]

Subsidy Payment Status
[Local Government Subsidies]

※ Scan QR Code > Connect to Zero-Emission Vehicle Portal website
※ Local Government Subsidies: Available when clicking "Local Government Subsidies by Vehicle Models" under the "Browse Reference Years" section

Application Procedures for EV Subsidies

- 1. Contract on vehicle purchase**
Customer → Branch/Agent

Visit branch and contract on vehicle purchase
- 2. Application for Subsidies**
Branch/Agent → Local Government

Check remaining vehicles assigned for local government subsidies and vehicle delivery date
Fill in the documents required and submit to the local government
Check if you were selected as a recipient
- 3. Consult for Charging Solution**
Customer ↔ Branch/Agent

Check the type of chargers and installation procedures
Give information on the desired chargers by customers
- 4. Vehicle Delivery**
Branch/Agent → Local Government, Customer

10 days before the expected delivery date
Finally check if you can receive subsidies
Check the availability and deliver
- 5. Apply for Subsidies**
Branch/Agent → Local Government

Apply for local government subsidies after delivery and registration
(Within 10 days after delivery)
- ※ Information above may vary depending on MOE/Local Government.
※ Visit Emission-Free Vehicle website for more information.

Kia Connect

Kia Connect is Kia's connected car service for wireless software updates, smartphone-based remote vehicle control, and emergency alerts for a safer and more convenient vehicle usage experience.

Remote control
Remote Air-conditioning Control
Remote Charging Control
Remote Door Lock/Unlock Control

Safety and security
Automatic Notification of Airbag Deployment
SOS Emergency Dispatch
EV Battery Monitoring

Maintenance
Driving Report
Wireless Update
Smart Remote Diagnosis

Navigation
Kia Connect Navigation
